CA® PROFESSIONAL  
Our aligner solution for  
your perfect smile

## WHAT ARE ALIGNERS?

Aligners are modern tooth correction systems that gently correct misaligned teeth with transparent, almost invisible plastic splints. In comparison to fixed braces, there is no need for fixed brackets and wire arches. An aesthetic solution that accompanies you discreetly through everyday life. In addition, aligners do not restrict you in your everyday life, because they can be easily removed for eating and dental care.

## ADVANTAGES CA<sup>®</sup> PROFESSIONAL

+ COMFORTABLE

+ EFFECTIVE

+ HYGIENIC

+ REMOVABLE

+ DISCREET

## WHY CHOOSE AN CA<sup>®</sup> PROFESSIONAL ALIGNER?

Compared to other aligner systems, part of the gum is covered by the transparent splints. This increases force transmission and makes the treatment more effective. Due to the low refraction of light at the cut edges, CA<sup>®</sup> PROFESSIONAL aligners are almost invisible. In addition, the high-quality aligner ensures a good oral feeling, is pleasantly smooth and convinces with its high biocompatibility. The aligners are cost efficient due to precise treatment planning and intermediate impression taking. From slight, aesthetic tooth misalignments to complex indications, the CA<sup>®</sup> PROFESSIONAL aligners variants cover all needs.

## CASE STUDY

Before

After

### DIAGNOSIS:

Crowding / inclination of the upper jaw
